Summary

Backend-focused developer with experience building scalable systems using Java, SQL, and modern backend frameworks. Strong foundation in data handling, API design, and system workflows, with hands-on experience developing AI-enabled backend infrastructure. A quick learner with a strong interest in building real-world applications and improving system efficiency. Looking to start my career in a growth-focused engineering environment where I can contribute and learn.

Education

B.Tech, Electronics and Communication Engineering	2022 – 2026
Sri Venkateswara College of Engineering, Tirupati	CGPA: 8.83/10
Intermediate (Class 12)	2020 – 2022
Gurudeva Vasistah Junior College, Kodur	87.6%
SSC (Class 10)	2020
Silver Bells English Medium High School, Kodur	CGPA: 10/10

Experience

Listing Partner (Freelance) – WEEX	Feb 2025 – Present
- Analyzed structured datasets to identify inconsistencies in listings, improving data accuracy and completeness. - Coordinated with stakeholders to validate information and maintain reliable system records.	
AI Azure Intern – Microsoft & Edunet Foundation	May 2025 – Jun 2025
- Evaluated AI model outputs, identified inconsistencies, and contributed to improving system reliability. - Worked with cloud-based workflows, tracking system metrics and documenting observations.	

Projects

AI Memory SDK – Long-Term Memory Infrastructure	Live
- Tested API responses and validated structured memory outputs for correctness and consistency. - Verified authentication and role-based access control (RBAC) to ensure secure and reliable system behavior. - Identified edge cases in memory storage and retrieval workflows to improve system stability.	
Finance Manager – Java Application	GitHub
- Validated transaction logic and ensured correctness of income and expense data processing. - Tested different input scenarios and identified edge cases to improve application reliability. - Implemented validation checks to prevent incorrect data entries and maintain data consistency.	

Skills

- Programming:** Java, C, SQL
- Backend Development:** FastAPI, REST API design, basic authentication (JWT)
- Databases:** MySQL, PostgreSQL (schema design, queries, data validation)
- Tools & Platforms:** Git, Postman, VS Code, Oracle Cloud (OCI basics)
- Core Concepts:** Data Structures, OOP, Database Design, API workflows

Certifications

- Oracle Cloud Infrastructure (OCI) Foundations Associate
- Oracle Cloud Infrastructure (OCI) AI Foundations

Additional Information

- Open to relocation and rotational shift-based roles.

Languages

- English (C1), Hindi (B2), Telugu (Native)
